

Conference Boosters

Bring an edge to your event by adding one or more of OMT Group's energetic, fun and thought-provoking Activities to your Conference Agenda!

Do you feel you need to spice up your Conference Format? Whether it's a Conference, Seminar, Team Planning Day or any Group Event, OMT Group have a range of activities which can add a little spice, bring an issue to conclusion, a discussion to a head or a new skill to life.....

What is it all about?

OMT Group's Conference Booster Series is a range of activities which can 'slot in' to a broader agenda.

Activities can be as short as 45 minutes or stretch to a few hours but they all have the same objective; to provide a different pace, a break from the routine and some new energy, while underpinning the Conference Theme at the same time.

OMT Group specialise in Accelerated Learning which is a Learning Style that aims to move People away from consuming to creating their learning experience. So not only will one or more of these activities 'boost' your event, they will also add great value by cementing your objectives in the minds of Attendees.

Designed to slot-in to any Group Event

Strengthens Event Theme

Tailored to your Needs

Fun and Energising

The Simulator

Experience the thrill and frustration of 'DOING' and then apply learnings to your current challenges.

We all revert to set behaviour when under pressure. This booster creates a 'real life' situation of a particular Business Challenge and tasks Competing Groups to create a solution while under various constraints and with limited resources. Whether launching a new Product, fixing a Customer Problem or creating a new Competitor Strategy, 'The Simulator' gets creative juices flowing, pulls People together and, showing up the cracks, offers great opportunities to fix them.

Let the Game's Begin

Explore issues/skills outside a Business Context in a manner that is hands-on and fun...releasing the creative child inside.

OMT Group's range of 'Games' create strong Team Building Opportunities. From Construction (Ship Building, Tee Pees, Self-Propelled Vehicles) to Orienteering, to Drama (writing stories, sketches, making movies) you can let your imagination run wild. Business Gaming is fun in a way that is not obviously linked to work but still provides a lot of food for thought.....

Broadcast News

Explore issues, complexities and varying perspectives where there is no right or wrong – just different 'endings'.

Using appropriate Movie Clips or Media Footage representing a chosen theme, 'Broadcast News' encourages analysis and debate leading to new insights into the complexities of the theme. Come up with alternative approaches, endings and solutions to the Broadcast and learn more about your Work Challenges and Yourself at the same time.

Teach Back

Explore a topic/area of expertise for yourself...because it's better to create learning rather than just consume the teaching of others!

OMT Group orchestrates an environment in which People create their own learnings through what is called the 'Teach Back' process. Linked to the relevant themes, Working Groups are tasked with researching a topic through a Resource Pack including books, newspapers, journal articles, internet access etc. and then 'Teaching Back' to the wider Group. In this way learning is embedded by having to summarise and communicate the key information.

Business Spotlight

Dive into detail, exercising your analysis and planning abilities to improve results and chart new courses of action.

Using Resource Materials provided by OMT Group, Groups will explore and review another Company who have/are experiencing similar issues/challenges. Whether it is a Competitor, similar Industry or a 'Best-Managed' Business, Groups will analyse and identify key learnings based on the Company's experiences and use them to draw parallels, diagnose root-cause issues and make recommendations for their own Business.

Experts Corner

Learn about a new topic/area from an expert who has been there, done that ...and learned from the journey.

OMT Group have access to many Client Organisations with a wealth of experience. They have been through the learning curve and are happy to share their story so that others might benefit. You can choose from a panel of speakers, across a range of expertise, to engage and encourage others to think about how to deal with their own challenges. One doesn't have to re-invent the wheel or make the same mistakes that others have – just listen!

Improv'

Practice new skills and approaches in a safe and constructive environment – either by 'directing' others or by 'taking to the stage' yourself.

Putting theory into practice is very challenging, even the use of the traditional Role Play can be daunting. OMT Group's 'Improv' is so much fun that Participants really loosen up and learn. Initially, OMT Group Facilitators experiment with Theory/Skills through Improvised Drama. As Participants gain confidence/competence they become involved in the action, finally taking the spotlight to showcase their new style/skill.

The Promise

Take concepts, learnings and 'Should Do' lists from the Conference environment and put them into action back in the reality of your day-to-day life.

Bringing new skills/ideas from any Training Activity back into the workplace is always challenging. Research shows we start to forget what we have learned within 9 hours! Spending time on transferring learning into a realistic Action Plan and Personal Commitment is invaluable. OMT Group use a creative process of visualisation as well as structured templates to capture what each person needs 'TO DO & BE' thereby cementing this commitment back at their desk.

**Further options and approaches available on request,
including Discovery Insights, Pictures of You and Open Space among others.**

OMT Group is an Organisational Development Firm that helps Businesses get better at leading, organising and managing their People to achieve better results.
