

Optimising your Organisational Structure

Now is the time to examine your Business Structure, Optimise your Performance & Maximise your success.

Focussed specifically on the structure and process of your Business, OMT Group can work with you to complete an Organisational Review within 6-8 weeks. By assessing existing structures, management processes/practice and operational processes/systems, you can revise your existing structure to ensure full alignment with Business Goals and achieve an optimum performance from your Teams.

With OMT Group's Project Approach the end result of improved Business Performance is closer than you might imagine.

What is involved?

- OMT Group will assign a Project Manager and 1 or 2 other Consultants. You will nominate a small number of talented individuals from across your Business. This partnership approach ensures an effective and efficient skills transfer and embedding of new capabilities
- A time-frame for the review would be agreed at the outset, depending on the size/scale of your Business but as an example, a Business with 500 employees would take on average 8 weeks
- A Four Step Review Process will then commence:
 - **Discovery**
 - **Develop Optimisation Options**
 - **Validate Options within Business**
 - **Agree Recommendations and Implement**

Why complete a Review?

- Changes in the strategic direction of your Business due to external/competitive events, internal executive decisions or a change in leadership
- Senior Management believe that a 'health check' of the Business is warranted as the current Business Structure is not delivering to current needs
- Existing structures/processes have been in place for an extended period, perhaps evolving organically, and need a fresh and objective review to ensure they are optimised
- Changing socio-economic circumstances necessitate and immediate and urgent need to bring about organisational changes

OMT Group is an Organisational Development Firm that helps Businesses get better at leading, organising and managing their People to achieve better results.
